Advanced Complex Analysis - Harvard University

1 Basic complex analysis We begin with an overview of basic facts about the complex plane and analytic functions. Some notation. The complex numbers will be denoted C . We let D and C_D denote the unit disk $|z| < 1$, the upper half plane $\text{Im}(z) > 0$, and the Riemann sphere $C \cup \{\infty\}$. We write $S_1(r)$ for the circle $|z| = r$, and S_1 for
