Yellow and brown After the seventh day from the time of injury, your bruise begins lightening to a pale yellow or light brown shade. This is the last stage of your body's re-absorption process....

Why Do My Bruises Have So Many Different Colors?

Treat bruises on your skin by limiting the bleeding. You can do this by cooling the area with a cold compress (a flannel or cloth soaked in cold water) or an ice pack wrapped in a towel. To make an ice pack, place ice cubes or a packet of frozen vegetables in a plastic bag then wrap it in a towel. Hold this over the area for at least 10 minutes.
