Start by rolling the driveway crack filler rope onto a sunny section of the driveway so it warms and softens. While it's warming, remove all the dirt, weeds and old driveway crack filler from the cracks. Scrape out the old material with a flat-blade screwdriver or 5-in-1 paint tool. It's a painstaking process, but it's critical to getting ...

The PL-500 is 2 x 25lb blocks of asphalt. Worth getting if you have very large area to cover/fill in (think commercial). crack stix is a similar product but in pre-formed (and wrapped) asphalt "rope" that's ready to use (think residential). PL-500 needs a kettle/pot to melt the asphalt in and then when melted you can pour where needed.
