output management is:  
A manager's output =  
The output of his  
organization + The  
output of the  
neighboring  
organizations under his  
influence . The  
principle is that a  
manager's output  
should not be focused  
on how much work he  
is able to produce, it  
should be measured on  
how much output his  
organization (team)  
and any neighboring
